

# Feras Mahmood

## GenAI and ML Developer

Oakville, ON | (365)7395522 | [technocratz979@gmail.com](mailto:technocratz979@gmail.com)  
[linkedin.com/in/feras-mahmood](https://linkedin.com/in/feras-mahmood) | [github.com/Ferasman979](https://github.com/Ferasman979) | [ferasmahmood.com](https://ferasmahmood.com)

### SKILLS

- Full-Stack Development (Python/JS) & ML Integration
- Scalable Data Pipeline Architecture (ETL/ELT)
- GenAI Architecture and App Development
- Containerization & Orchestration (Docker/K8s)
- Cloud Computing & IAC (AWS/GCP/Azure)
- Model & Data Monitoring/Dashboarding (Grafana/Prometheus)

### EXPERIENCE

#### Sheridan College

Oct 2025 – PRESENT

*ML Developer/Research Assistant*

*Oakville, Ontario*

- **Platform & Data Governance:** Architected and governed highly scalable data schemas, ingestion pipelines, and automated validation workflows, specifically supporting productionized RAG Agents and sophisticated NLP systems.
- **CI/CD & Reproducibility (Model Lifecycle):** Designed and operationalized the end-to-end Machine Learning lifecycle (MLOps), transforming prototype ML engines into highly reproducible CI/CD pipelines that fully automate feature engineering, model training, and continuous evaluation.
- **High-Volume Production Operations:** Led the deployment, monitoring, and sustained operation of high-impact, containerized ML services, managing infrastructure reliability and scaling to support 20,000+ active users with 99.9% up-time and volume requirements.
- **Cross-Functional Project Lead:** Collaborated with designers and developers, defining operational requirements and implementing best practices to ensure models, vector stores, and data flows were inherently scalable, maintainable, and cost-efficient in production environments.

#### Paradigm Electronics Inc.

May 2024 – Aug 2025

*Data Analyst*

*Mississauga, ON*

- **Data Pipeline Optimization & Automation:** Engineered and scaled robust ETL pipelines and complex SQL transformations using Apache Airflow, resulting in the automated daily, Month-to-Date (MTD), and Year-to-Date (YTD) reporting for Global sales operations.
- **Business Intelligence & Financial Impact:** Developed and deployed key performance indicator (KPI) dashboards for Finance and Sales teams, incorporating automated anomaly detection that directly led to the recovery of \$15,000 CAD in misplaced costs.
- **Strategic Data Analysis & Revenue Growth:** Conducted deep-dive data analysis on product quality metrics and sales performance indicators, providing actionable insights that fueled a documented 20% revenue growth for the organization in Q2, 2024.

### PROJECTS

#### HR GenAI Application | *Next.js, React, TypeScript, LangChain, Azure*

- Built an AI-powered ATS using LangGraph and Llama 3 to automate resume parsing, candidate scoring, and RAG-based evaluation.
- Implemented autonomous research agents with Puppeteer to verify candidate claims via GitHub and portfolio analysis.
- Deployed event-driven, observable infrastructure on Azure Container Apps using MongoDB change streams and GitHub Actions.

#### Sports Analytics App | *Python, OpenCV, YOLOv8, Flutter, GCP (Cloud Run, Pub/Sub)*

- Developed a real-time cricket analytics mobile app using Flutter and YOLOv8 for shot detection and recommendations.
- Designed a serverless ML inference pipeline on GCP (Cloud Run, Pub/Sub) for scalable, cost-efficient deployment.
- Achieved 1st Place Capstone Project, deployed to production with active users.

### EDUCATION

#### Sheridan College

Sep 2021 – Apr 2026

*Bachelor's Degree in CS (Data Analytics)*

*Oakville, ON*

- GPA: 3.1
- Achievements: Secured First Place in Capstone Showcase, recognized for innovation, technical excellence, and real-world impact in AI-powered sports analytics
